| <b>Job Title:</b>     | Software Developer |
| <b>Position Type:</b> | Full Time          |

**Job Purpose:**

Right On Interactive, a fast-growing marketing technology firm, is looking for a Microsoft.NET software developer to work on the company's flagship customer lifecycle marketing product. You will be responsible for the middle tier and back-end development, architecture and design of sub-systems, and maintain the existing code base.

The software developer will be working closely with the UI/UX developer and the QA engineer to ensure the product adheres to all coding practices. You will interact with the Customer Service team helping to solve technology issues related to the product. You will be expected to become an expert in CRM, marketing automation and marketing technologies in general.

**Primary Responsibilities:**

- Responsible for developing and architecting new features within the product
- Responsible for maintaining the existing code base
- Provide support to Customer Service team on product issues and enhancements
- Work as part of a team and contribute to the overall success of the company

**Skills/Qualifications Desired:**

Required

- Expert in Microsoft.NET technologies including C#.NET
- In-depth knowledge of Microsoft SQL server
- Ability to implement RESTful API's and develop API strategies
- Ability to work with event driven data in real-time or batch processing
- Familiar with Amazon Web Services (AWS)
- Familiar with HTML, Javascript, Node.js and jQuery
- Familiar with various design and architectural patterns
- Minimum of five years experience as a .NET developer
- Bachelor's degree in Computer Science / Technology or other related field

**Bonus, not-required**

- Quartz.NET - Event Scheduler
- Message Gears
- SOAP / SOA
- Multi-tenant SQL Architecture

**Benefits**

- Annual Salary - Paid monthly at end of each month.
- 15 days of PTO, eight company holidays and two floating days
- Medical, Dental, Short & Long Term Disability, and Life Insurance
- Flexible schedule with ability to work from home (80% Office, 20% Home)
